

In 2012 we engaged with several schools on the **Year 7 catch-up programme**. The students self assessed and the school also did independent assessments before and before and afterward the intervention of just 4 hours coaching. The school saw 2 children improve by 1 sublevel, 2 improve by 2 sublevels, 3 improve by 3 sublevels and 1, who was diagnosed with Aspergers, improve by 5 sublevels. You can find the graphs of the 21 students self assessments here.
